

# BED SCHEDULE - GUESTS, ROOMS & BEDS

Guest accommodation for up to 40 Guests in 6 Barns & the Farm House

# TREVENNA

The accommodation for 40 Guests at Trevenna is provided within 6 Barns and the Farm House.

**Site Plan** - A Site Plan of Trevenna showing the location of the Barns, the Farm House, Gardens and Parking is available as a download from our website.

**Bed Schedule** - Use this Bed Schedule when planning which rooms you would like your guests to sleep in. This schedule indicates where bedrooms are located (Ground/First floor), with private or shared bathrooms.

**Team Tips** - The rooms you allocate your guests are entirely up to you. However, we are often asked for our tips and suggestions from our experience on who and what works well. The annotations to this Bed Schedule are from Team Trevenna, sharing our Know-How with you.

## IMPORTANT CONSIDERATIONS WHEN ALLOCATING ROOMS TO GUESTS

**Team Tip:** Please be mindful of the following points. These notes may appear strict. However, we are sharing our experience of Checking In guests. Please carefully consider your bed plan and allocate beds appropriately so as to manage guest expectations before arrival. If you have more guests than beds, it is better to allow the additional guests to find local accommodation, than compromise their stay and that of others in the barns.

**Heavy Beds** - The beds are handmade from reclaimed wood and are very heavy! The Bed Schedule indicates the locations of Single & Double Beds in all the Barns and Farm House rooms. Unfortunately, it is not possible to move beds between rooms. Pushing single beds together will not create a double bed due to thick wood bases.

**40 Beds for 40 People** - Trevenna provides 40 beds for 40 people (including the couple). Please do not allocate guests into beds that are not actually shown in this schedule. The maximum number of Adults in beds cannot exceed 40 adults.

**Trevenna does not provide Pop-Ups Beds** - Adults must be in beds.

**Team Tip:** From experience, we have seen that adult guests do not like to sleep on a floor in another persons bedroom/lounge. Also, guests contributing to stay in bedrooms do not like random guests staying in their lounge. Guests without an allocated bed are better placed in local accommodation arranged in advance.

**Additional Children Staying at Trevenna** - Additional children may be allocated floor space. Please be mindful of the following tips:

- Parents are advised before arrival that their children have been allocated floor space and not a proper bed.
- Parents are advised before arrival that they are required to **bring all Floor Beds & Bedding** (such as blow up mattresses and sleeping bags).
- Floor space is available for additional children where the Bed Schedule indicates cots may be used.
- There is no accommodation charge for additional children staying on floors.
- Meals served in the Farm House for additional children (above the 40 adults already included) aged between 6-17 year are charged for @ half price.

**Baby Guests** - We have 3 travel cots for baby guests to use, provided:

- Parents **bring cot bedding**.
- The Bed Schedule indicates in which rooms cots may be used, if required.
- Please only allocate 3 cots across the whole site. Parents would need to bring additional cots if more than 3 cots are required during your stay.
- Parents travelling with babies are better suited to the Barns as they have kitchen facilities, including microwaves and washing machines, that are ideal when caring for and feeding your baby guests. There are no kitchen facilities in the Threshing Barn/Farm House Rooms, therefore these rooms are not suitable for guests with babies.

We love the large living area in the Shippon. As there are steps up to the bathroom & the shower is above the Bath, we do not recommend this barn for elderly or the infirm.
